PROS

Pro Description	Members
First small parts of the project completed (mobile login and login service)	SB, MB
More experience gained from coding	SB
Microservices interaction diagrams helped understanding the whole system	NL, SB, MB, MD

CONS

Con Description	Members
4th sprint without shipping anything for the client	NL, SB, MB, MD
No microservice implemented	MB
Vehicle service class diagram took too much time	SB

IMPROVEMENTS FOR NEXT SPRINTS

- More self-organization for tasks
- Assign task only to one person
- Better organization of sprint backlog to avoid blocking developers
- Limit the detailed structure diagrams to only interfaces and API
